PROFESSIONAL EXPERIENCE

- **Backend Developer**

- AMPEERS ENERGY GMBH**

August 2022 – present

Main task: Migrating a JavaScript/REST/OracleDB backend service to TypeScript/GraphQL/ArangoDB. Planning, implementing and testing.

- **Lead Full Stack Developer**

- COSUNO VENTURES GMBH**

January 2022 – July 2022

Apart from developing, I was responsible for discussing new features with product and design, making architectural decisions, reviewing code, unblocking team members and onboarding new team members.

- **Full Stack Developer**

- COSUNO VENTURES GMBH**

April 2021 – December 2021

SaaS for construction projects

Building and testing frontend and backend in TypeScript in an agile team.

- **Working Student**

- QAWARE GMBH**

March 2019 – May 2019

Helping maintain a Java web application for the security checking process for Telekom projects. My tasks were mostly front-end centered (SASS, jQuery), but also involved some bug-fixing on the backend.

- **WordPress Developer**

- CREATE RAW VISION**

May 2018 – December 2022

Building and maintaining a WordPress Website for more than 100 members and over 1000 daily visitors. Notable features include a members area and an integration to a custom payment gateway.

EDUCATION

- **B.Sc. in Mathematics (Computer Science minor): Final grade 1.9 (A)**

- TECHNICAL UNIVERSITY OF MUNICH**

October 2016 – February 2021

- **Abitur / A-Levels: Final grade 1.4 (A+)**

- WILLIBALD-GYMNASIUM EICHSTÄTT**

September 2008 – June 2016
