PROFESSIONAL EXPERIENCE

- **Lead Full Stack Developer**
  COSUNO VENTURES GMBH   January 2022 – present
  Apart from developing, I was responsible for discussing new features with product and design, making architectural decisions, reviewing code, unblocking team members and onboarding new team members.

- **Full Stack Developer**
  COSUNO VENTURES GMBH   April 2021 – December 2021
  SaaS for construction projects
  Building and testing frontend and backend in TypeScript in an agile team.

- **WordPress Developer**
  CREATERAWVISION   May 2018 – present
  Building and maintaining a WordPress Website for more than 100 members and over 1000 daily visitors. Notable features include:
  - A members area
  - An integration to a specific payment gateway (DigiStore)

- **Working Student**
  QAWARE GMBH   March 2019 – May 2019
  Develop a Java webserver for the security checking process
  for Telekom projects.
  My tasks were mostly front-end centered (SASS, jQuery)
  and bug-fixing on the backend.
  The app was nearly a decade old, but it was very well organized.
